Barnes made a motion to amend section 404.B.3.b. of the zoning ordinance to read as follows:

“All lots created by subdivision shall meet the minimum and maximum lot area and minimum lot width requirements of Section 402. However, the residual tract does not need to meet the maximum lot area requirements of Section 402 provided the use of the lot does not change from the principle use that which existed for the parent tract prior to the subdivision. (For example – A farm as defined in this ordinance has a principle use of agriculture; therefore the residual tract from the subdivision of the farm would need to maintain that agricultural use.”

The motion was seconded by Mr. Beard and was passed unanimously. Mr. Barnes will send the recommendation to the BOS and to CGA.
